FIRST FRC Robotics Team #2423

www.team2423.org

Finalists

Thank you Boston Dynamics and mentor Josh for the tour on November 6th.
Great to see [Atlas](#) up close as well as take a turn maneuvering a [SpotMini](#).

We are continuing to build our fall practice robot chassis and electronics board,
designing and re-designing a ball shooter and practicing our wiring skills.

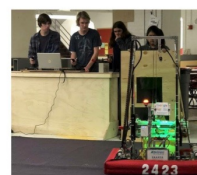

Our programming team has been working on color vision tracking to assist the drivers
with the location and acquisition of game pieces during a competition match.

Drive-a-thon & Alumni Reunion on December 15th at 11 am.

Come join us for robot driving,
catching up with alums and
checking out past robot designs.

*All alums, family, friends, sponsors & supporters
of the WHS robotics team are welcome!*

For full details, [click here](#) or
email mary-benham@team2423.org.

Drive-a-thon

Students, mentors and alums will divide
into 3 member drive teams to see how
many laps they can drive a robot around
the course on the basketball court,
including traversing obstacles during a
5 minute time period.

Pledges can be made for the number of
laps completed by a drive team within the
time limit or a lump sum donation made.

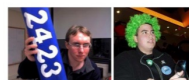

Robot Rodeo

Several team robots will be on display for
family, friends and sponsors to view.

Why not give driving a robot a try too?

Come join the
WHS Robotics Team
for a
**Drive-a-thon,
Alumni Reunion &
Robot Rodeo**
